OUR TEAM

MEET OUR EXPERTS.

At **Faze Lighting**, our strength lies in a dynamic team of experienced professionals who specialize in lighting design, automation, and project management. With over nine years of combined experience, we've successfully delivered impactful lighting solutions for high-profile government and commercial projects across Bangladesh.

We don't just follow trends—we lead with innovation. Every project is tailored to meet the unique vision of our clients, blending creativity with expertise to deliver exceptional results. From concept to execution, we bring every space to life—brighter, smarter, and better.

ABOUT US

Faze Lighting is a forward-thinking lighting solutions provider, committed to redefining the lighting landscape in Bangladesh through smart, sustainable, and design-centric innovation. Established by industry veterans with extensive experience in lighting design and automation, our company blends creativity, advanced technology, and technical precision to deliver exceptional outcomes.

Our expertise spans architectural, industrial, and landscape lighting, as well as façade illumination and intelligent DMX-based automation systems. Each project is approached with a bespoke solution, supported by detailed technical calculations, 3D simulations, and comprehensive project execution.

Utilising industry-standard tools such as Dialux Evo, AutoCAD, and advanced 3D visualisation software, we ensure that every design is not only energy-efficient and technically sound but also visually compelling and aligned with the client's vision.

We collaborate with globally recognised lighting brands to ensure the highest standards in product quality, design integrity, and long-term reliability. Our after-sales services are backed by structured warranty programs, including 2-year, 3-year, and 5-year options, ensuring continued support and peace of mind for our clients.

PHILOSOPHY

Mission

We aim to create a new level of awareness in the lighting industry. Our work is guided by knowledge, honesty, and dedication helping our clients make smart lighting decisions and build lasting partnerships.

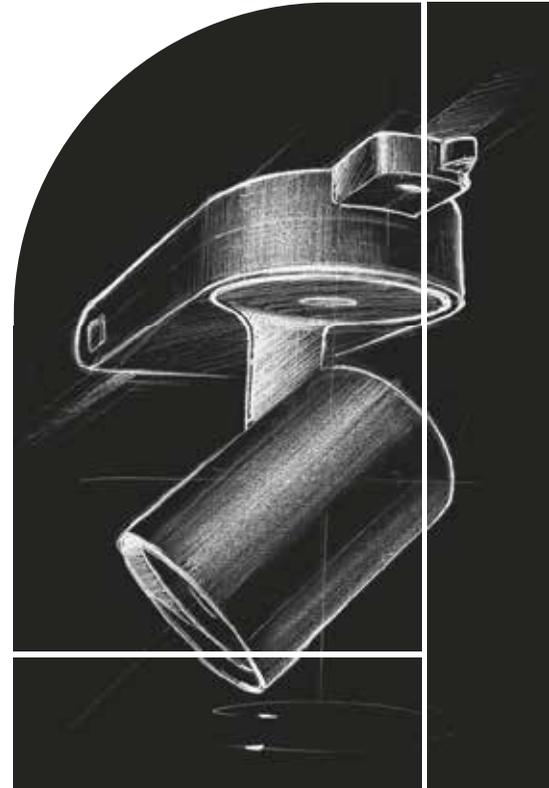

Vision

To create sustainable and inspiring lighting solutions that enhance spaces, respect the environment, and improve human life.

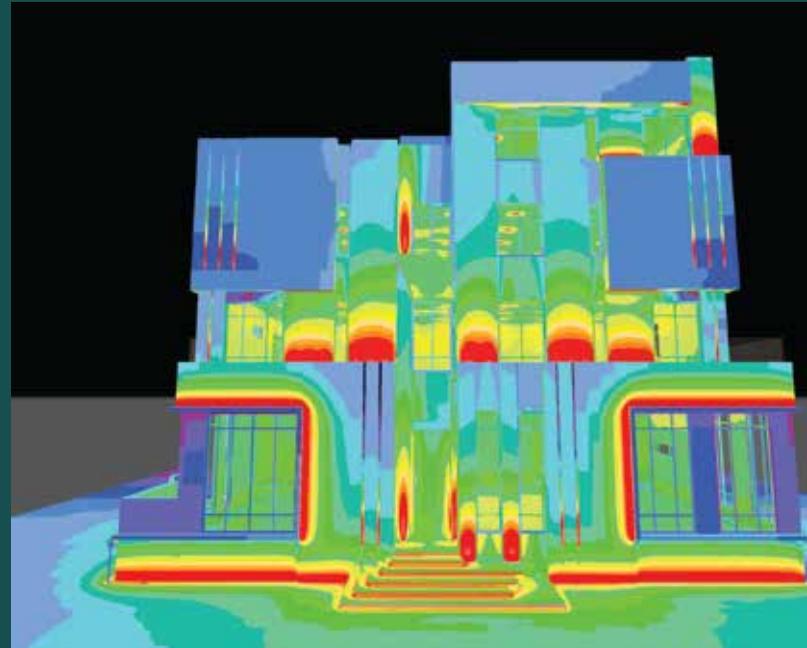

Values

Our values rest on sustainability. From the early stages of a project, we consider the pillars of sustainable design: materials, energy efficiency, and health, aiming to improve the quality of human life and man's relationship with the environment through responsible design.

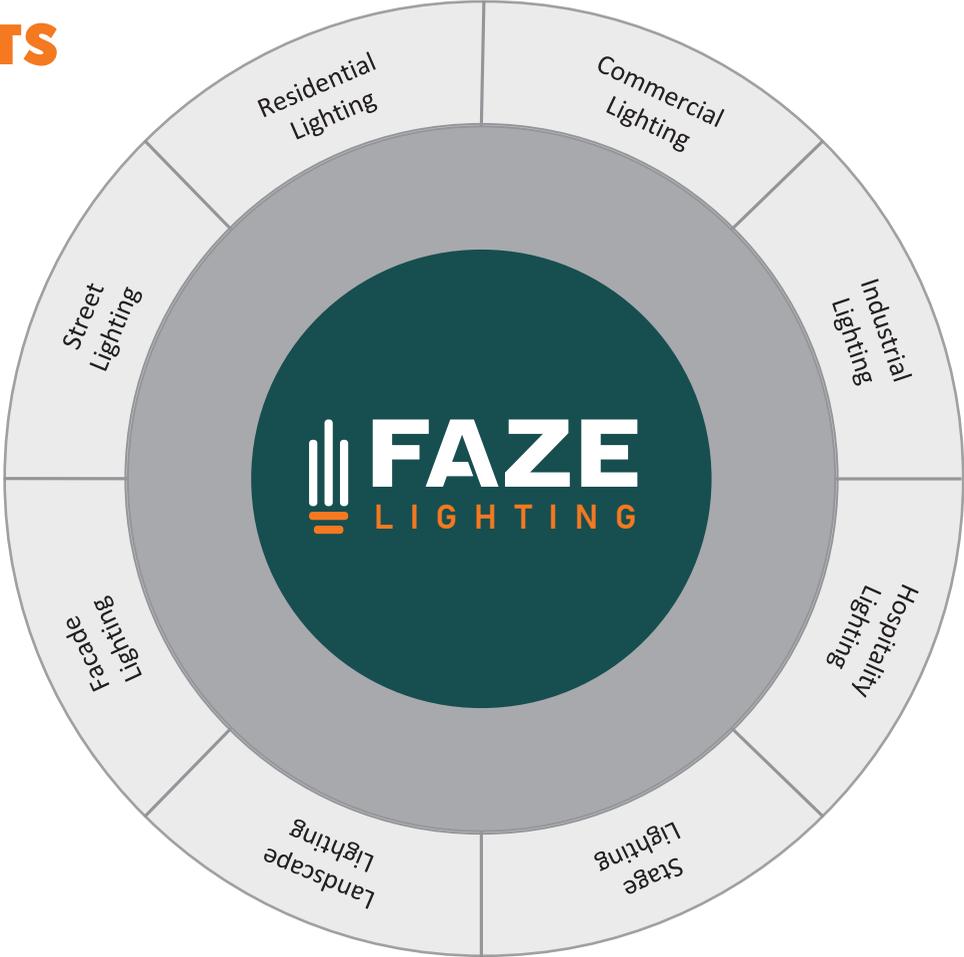

ILLUMINATING EXCELLENCE

OUR LIGHTING DESIGN SERVICES

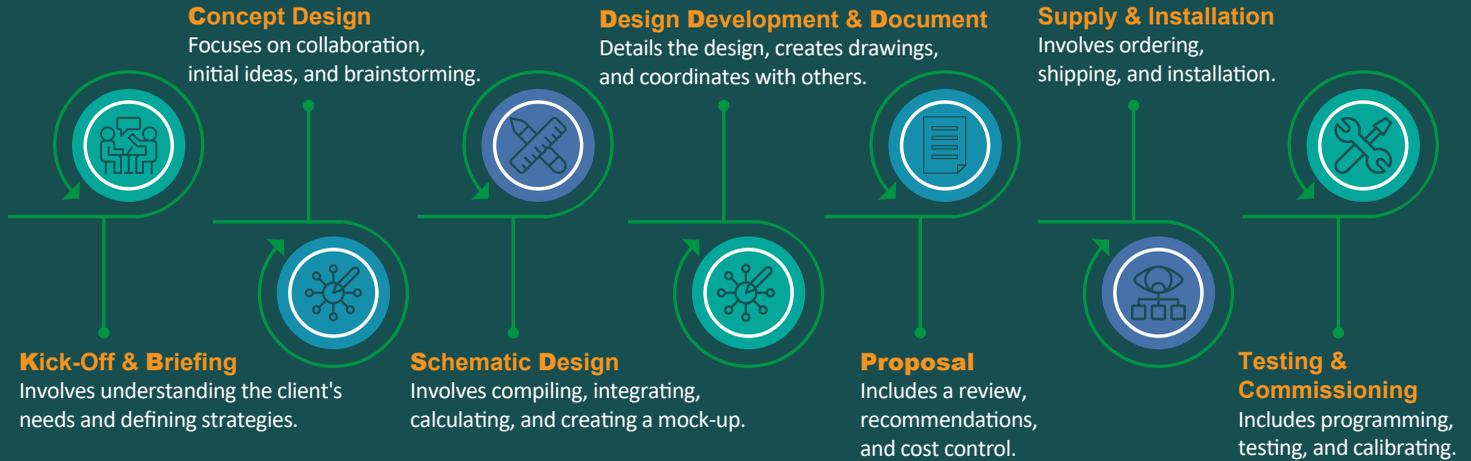

At FAZE Lighting , our lighting design services blend creativity & functionality to illuminate your spaces with elegance. We tailor solutions to your vision, ensuring every corner shines brilliantly.

LIGHTING DESIGN SEGMENTS

WORK PROCESS

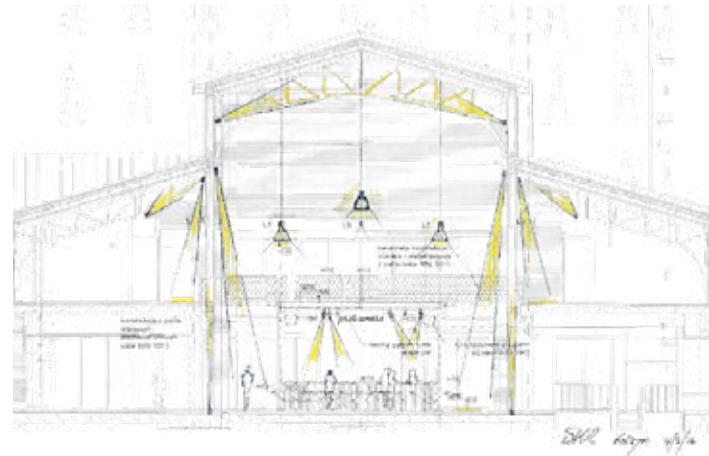

HOSPITALITY LIGHTING

At **Faze Lighting**, We are experts in hospital lighting design, focusing on patient comfort, staff efficiency, and safety. Our solutions follow **EN 12464-1**, **IES**, and **CIBSE** standards to ensure proper brightness, glare control, and color accuracy. From operation theatres to patient rooms, we create healthy and efficient environments using energy-saving LEDs and smart controls that enhance visibility, reduce fatigue, and support healing.

INDUSTRIAL LIGHTING

At **Faze Lighting**, we deliver high-performance industrial lighting built for strength, efficiency, and reliability. Our systems use durable materials and smart control technology to ensure long-lasting performance in harsh environments while saving energy and reducing maintenance. We follow **IEC**, **EN 12464-1**, **IES**, and **CE (EMC + LVD)** standards to guarantee safety and quality. Our goal is to create a safe, efficient, and sustainable lighting environment that enhances productivity and long-term value.

FACADE LIGHTING

At **Faze Lighting**, we specialize in dynamic façade lighting that transforms buildings into striking visual landmarks.

Our **DMX**-controlled systems deliver programmable effects, giving precise control over color, brightness, and motion.

Our solutions are energy-efficient, durable, and fully compliant with international standards turning any façade into a vibrant, captivating experience.

LANDSCAPE LIGHTING

Faze Lighting brings outdoor spaces to life through smart, energy-efficient landscape lighting. Our designs enhance beauty, safety, and functionality illuminating gardens, pathways, and architectural features with elegance. Maintaining international standards and using **advanced LED & solar technologies**, we deliver durable, sustainable, and visually captivating lighting solutions that transform any landscape day or night.

STAGE LIGHTING

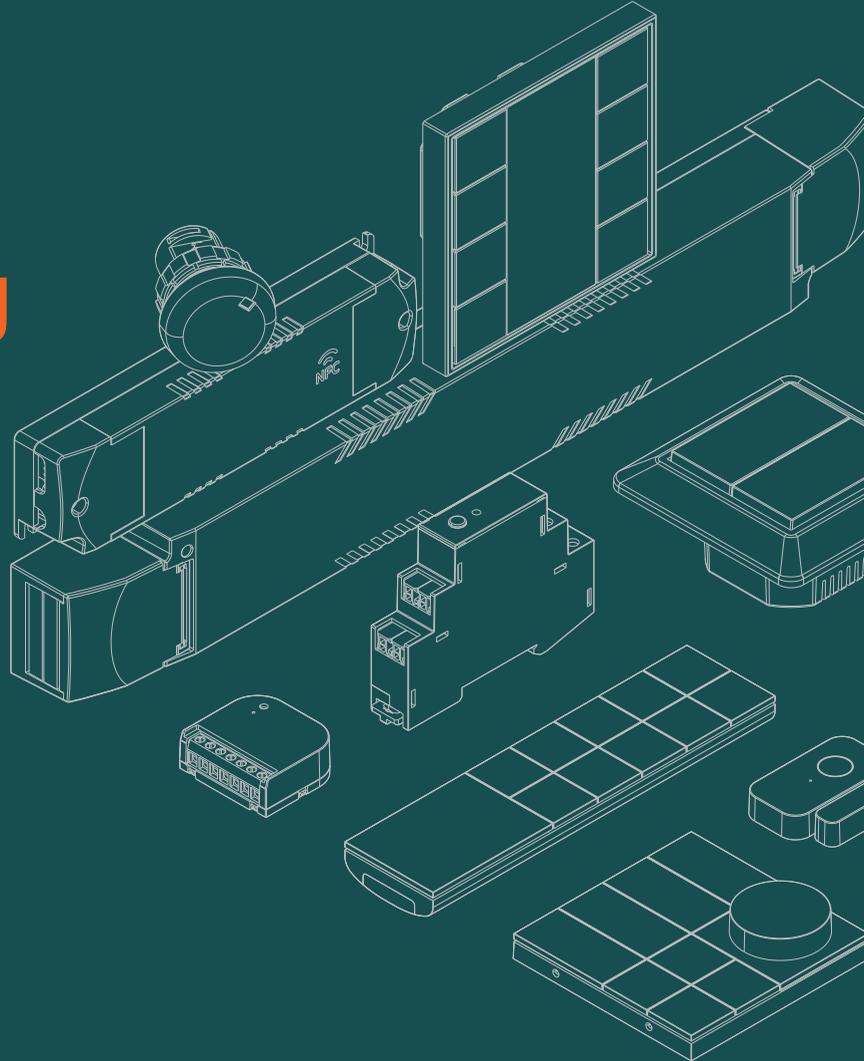

Faze Lighting delivers professional stage lighting that transforms performances into stunning visual experiences. Using advanced **DMX-controlled** LED technology and maintaining international standards, we create dynamic, precise, and impactful lighting setups that bring every stage to life with color, energy, and perfection.

STREET LIGHTING

Faze Lighting provides modern and energy efficient street lighting solutions designed for safety, visibility, and sustainability. Our **advanced LED** and **smart control systems** ensure uniform illumination, reduced energy consumption, and long-term reliability. Maintaining international standards, Faze Solution delivers durable and cost-effective lighting that enhances urban roads, highways, and public spaces with clarity and confidence.

Smart Lighting Solutions

RF/Wi-Fi

“SMART LIGHTING IS THAT LIGHTING THAT REACTS INTELLIGENTLY TO CHANGING PEOPLE’S NEEDS AND ENVIRONMENTAL CONDITIONS.”

AUTOMATION & LIGHTING CONTROLLING

Automation and lighting control systems are becoming essential for modern residential, commercial, and industrial projects. Recognizing the growing demand **Faze Lighting** is committed to delivering cutting-edge automation solutions tailored to client needs.

Our team specializes in designing and implementing smart lighting automation systems that enhance efficiency, convenience, and sustainability. We collaborate with trusted brands and advanced technologies to ensure seamless integration, whether for homes, offices, or large-scale industrial projects.

With thorough testing and verification, we guarantee optimal system performance and client satisfaction. **Faze Lighting** is committed to transforming spaces with intelligent automation and lighting solutions.

PREVIOUS PROJECT EXPERIENCE

Before founding **Faze Lighting**, I had the opportunity to work with several renowned companies in the field of lighting and electrical design. During that time, I was involved in a variety of projects, including architectural, commercial, and industrial lighting designs. Our experience includes concept development, design execution, and project coordination.

Below are some selected projects I worked on during my previous roles.

**ISLAMIC UNIVERSITY,
KUSHTIA, BANGLADESH.
LANDSCAPE LIGHTING.**

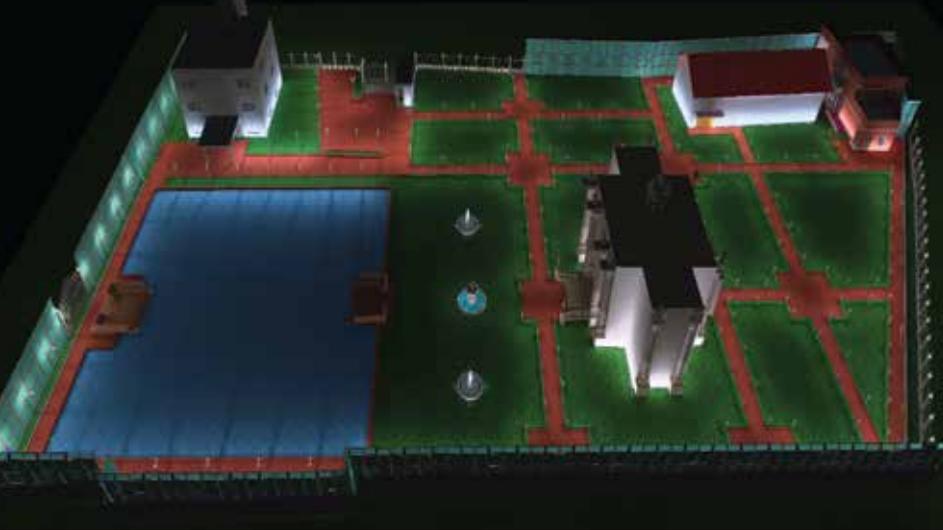

**3-STORIED MOSQUE FACADE LIGHTING
DESIGN AT JATIYA KABI KAZI NAZRUL
ISLAM UNIVERSITY**

**13, BANGLADESH SECRETARIAT BUILDING,
FACADE LIGHTING.**

**DHAKA SHISHU PARK.
LANDSCAPE LIGHTING.**

**ROSE GARDEN PALACE, OLD
DHAKA.
LANDSCAPE LIGHTING.**

Thank You!
